- (g) Review plans, approve or deny, inspect and accept extensions to the System.

(h) Establish and enforce regulations to protect and maintain water quality within the System in compliance with water quality standards established by the City, State, regional and/or federal agencies as now adopted or hereafter amended.

Should a vacancy occur on the Board, the remaining portion of the unexpired term shall be filled by the Mayor and approved by City Council.

(b) The Board is authorized to hear appeals regarding disputes and complaints brought by owners and nonowners concerning application of this chapter, including the authority to make adjustments as appropriate to provide relief from a strict application of the provisions of this Chapter due to unique circumstances which reduce the burden of operating, constructing, repairing and maintaining the Stormwater Management System and the structures and devices related thereto, while accomplishing the intent of this Chapter, as follows:

1. Calculation of the total number of billing units assigned to a property that are claimed to be inaccurate due to alleged inaccuracies in data utilized by the billing staff.
2. Adjustment to or credit against billing units assigned to a property which wholly or partially drains directly outside the City limits.
3. Adjustments to or credits against billing units assigned to properties containing stormwater detention or retention facilities providing on-site management of stormwater prior to discharge to the public Stormwater Management System.
4. Adjustments arising from a break in billing units due to change in property ownership, account responsibility or similar matters.
5. Any other adjustments or credits against billing services assigned to properties which diminish the quantity of stormwater handled by the Stormwater Management System or reduce the cost to the City of constructing, operating and maintaining said System, such as a property owner's agreement to install oversized storm sewer pipes at its own cost, which provides stormwater drainage for other properties, obligations assumed by an owner to maintain and repair storm sewer lines which are a part of the City's Stormwater Management System, providing stormwater retention of detention facilities designed and installed to detain or retain stormwater originating from other properties.

(c) Any appeal must be filed in writing for a request for reconsideration, and must describe the specific error alleged, and contain the resolution of said dispute which the appealing party feels is correct. Said Board may request additional information from either the appealing party or the City. The decision of said Board shall be final.

938.08 Flooding, Liability

Floods from stormwater runoff may occasionally occur which exceed the capacity of storm drainage facilities constructed, operated, or maintained by funds made available under this Chapter. This Chapter does not imply that Property subject to the fees and charges established herein will always be free from stormwater flooding or flood damage, or that stormwater systems capable of handling all Storm events can be cost effectively constructed, operated, or maintained. Nor shall this Chapter create a liability on the part of, or cause of action against, the City or any officer or employee thereof for any flood damage that may result from such Storms or the runoff thereof. Nor does this Chapter purport to reduce the need or the necessity for obtaining flood insurance.

938.09 Notice to Correct Drainage

- (a) Whenever the City Manager or his designee shall find that a tract of land is inadequately drained, or that there is an obstruction to a culvert, covered drain, or other natural or man-made watercourse that interferes with water naturally flowing therein or that such culvert, drain, or watercourse is of insufficient capacity to reasonably accommodate the flow of water, as required by this Chapter, the City Manager or his designee shall notify the owner or person having possession, charge, or management of such land to remove the obstruction or provide the

necessary drainage. Such Notice shall be served on such persons by personal delivery, by mail at the last-known place of residence, or by posting on the Premises.

- (b) The owner must comply with the City Manager's orders within the time specified and not to exceed thirty (30) days. Failure to comply with such order shall constitute an unlawful act and be subject to section 14 of this chapter. Each additional period of ten (10) days thereafter during which the owner fails to carry out the order of the City Manager or his designee, shall constitute a separate offense.

938.10 Emergencies, Abatement

- (a) In case of an emergency, the City Manager or his designee may direct that action be taken immediately to correct the condition or abate the activity to protect the public health, safety, and welfare. The City may perform the required work and charge the owner the Abatement costs.
- (b) In any case where a condition described in Section _____.09 exists for more than thirty (30) days after service of Notice, Council may by resolution direct the owner to fill or drain such land, remove any obstruction and, if necessary, enlarge the culverts, drains, or watercourse to meet the requirements of this Chapter.
- (c) After service of a copy of such resolution or after publication in a paper of general circulation in the City for two consecutive weeks, the owner, or agent or attorney, shall comply with the directions of the resolution within the time therein specified. When the resolution is submitted to the appropriate Council committee, the owner shall be afforded Notice and an opportunity to be heard prior to passage of the resolution. In the event an owner fails or refuses to comply with Council's resolution, the City may perform the required work and charge the owner the Abatement costs. Such costs shall constitute a lien on the real Property from the time of the adoption of the resolution which may be enforced by suit in the court of common pleas.

938.11 Abatement Costs

- (a) The City Manager or his designee shall account for all costs associated with an emergency or Abatement, including but not limited to administration, notification, inspection, serving of papers or documents, legal counsel, force account labor, enforcement, operational services, and outside contracted services. These costs shall be added to the owner's Storm drainage service charge.
- (b) This Section shall not be construed to relieve the owner of any penalties prescribed by other Sections of this Chapter.

938.12 Emergency Situations

Nothing in this Chapter shall be construed to prevent immediate action by the City Manager or his designee in emergency situations.

938.13 Penalty

- (a) Any person, being the owner, agent, or having control of the Premises, who violates any of the provisions of this Chapter, or fails to conform to any of the provisions thereof, or fails to obey any order of the City Manager or his designee, shall be guilty of a misdemeanor of the first degree. Each and every day on which such person continues to violate the provisions of this Chapter after having once been notified of such violation shall constitute a separate offense.
- (b) Any person, being the owner, agent, or having control of the Premises, architect, engineer, contractor, builder, subcontractor, foreman, mechanic, employee, or other person who shall violate or assist in the violation of this Chapter, or of any certificate, order, or permit issued hereunder, shall be guilty of a misdemeanor of the fourth degree on each offense.
